Girls’ Health: An Action Plan for Maine	7
Guiding Principles	7
Goals for Assuring Girls’ Healthy Development	8
Key Result Area: Community Development and Support	8
Goal 1: Ensure asset development and quality education about the unique needs of girls for girls, their families and communities	9
Goal 2: Identify and foster community interventions for girls that promote and support individual and community action	9
Key Result Area: Health, Academic and Social Service System Response	10
Goal 1: Ensure that all Maine girls have access to the resources and services they need for healthy development	10
Goal 2: Ensure quality education and training for educators, health and other service providers around the unique needs of girls	11
Key Result Area: Public Policy Development and Implementation	13
Goal 1: Ensure that appropriate data is collected and analyzed to inform and evaluate policy and programs for girls	13
Goal 2: Ensure public policy that recognizes and responds to the specific needs of girls	15
Key Result Area: Resource Allocation	17
Goal 1: Ensure that the necessary resources to support the action plan are available and known to supporters.	17
Goal 2: Provide support for initiating the social change needed to support girls’ healthy development	18
A Final Word	19
